

ENVIRONMENTAL POLICY

Main Objective

The Norwich Arts Centre aims to become a leader of sustainability in the multi-arts sector and to achieve a reduction of approximately 10% in carbon footprint over the next three years (2013 – 2016), from 7.5 tonnes Co2 to 6.75 tonnes Co2 p/a.

To deliver this Norwich Arts Centre aims to:

- Reduce Norwich Arts Centre's resource consumption and pollution.
- Reduce Norwich Arts Centre's wastage; in terms of both landfill and recycling.
- Increase awareness of green issues and sustainability amongst staff with regards to day-to-day procedures through appropriate signage.
- Act as an ambassador amongst the local arts community to increase awareness of green policies through appropriate signage and online presence.
- Norwich Arts Centre already actively encourages staff to travel to work via public transport, walking, or cycling. This will continue and will branch into the wider community.
- Norwich Arts Centre is committed to continuing the work started in 2008 with our Environmental Review Report by monitoring and improving our action plan.
